How is admission handled?

IA student admission is handled the same as any other potential first-year University of Florida student - you are simply adding a preference for our program. The UF Office of Admissions will determine if you are admitted into UF and if you are a fit for IA, Fall, or Summer B. You will only receive one offer from UF admissions.

Major IA Events Briefly Explained:

Launch – Convocation for New Innovation Academy Students
What are the innovation minor requirements?

The UF Innovation minor is exclusive to IA students. Courses are designed to provide a core knowledge base and a skill set to prepare IA students for the 21st-century workplace. Coursework highlights skills like entrepreneurship, design, creativity, prototyping, collaboration, leadership, ethics, and innovation. For more information on specific course requirements, please visit: [https://bit.ly/3mXr3ht](https://bit.ly/3mXr3ht)

What are the different tracks?

Incoming through rising sophomore IA students now have a choice between two tracks in their innovation minor: General Concentration or Artificial Intelligence. To learn more, please visit: [https://bit.ly/3teEtXO](https://bit.ly/3teEtXO)

I still do not understand IA.
