COURSE DESCRIPTION

The UF Innovation Academy Internship Experience is designed to give IA students opportunities to work on projects with ventures in the greater-Gainesville community during each Fall semester. Interdisciplinary teams of at least 2 students will undertake projects designed by local for-profit companies and non-profit organizations.

These opportunities will include internships with local companies, including both for-profit businesses and non-profit organizations at various stages of development (from nascent startup ventures to well-established corporations). The aim is for the projects to address issues that relate to applying an innovation-mindset not only in one sector (biotechnology, for example) but to offer opportunities that span Arts & Culture, Civil & Human rights, Poverty alleviation & Economic development, Education, Food & Agriculture, Health & Healthcare, Public service & Civic Engagement and Science & Technology.

Students will earn 4 credits of IDS4941. Students will earn letter grades based on their final report and the evaluation surveys completed by the partner venture. Reports will include a detailed explanation of group activities and projects, expected outcomes of internship team activity, and
